---

July 27, 2011

We would like to thank the members of the "Choices" program, and Mr. "Tank" Jones for their planning and successful coordination of our summer success program "final celebration" event. The team from the "Choices" program developed a thoughtful series of activities with a clear educational message for our students. The event included original contemporary music, with messages about striving to do more, and engaging students to plan their focus on academic success. Mr. Jones, and his contemporary musicians, provided a wide range of film clips and music to both entertain and to support a positive academic expectation. We also appreciate the fact that this whole event was provided as a "turn-key" event, which required no additional district resources outside of the event cost and services.

Sincerely,

Dennis Runyan  
Superintendent of Schools
